DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

In the third line of claim 1, perhaps applicant intended to recite “a plurality of input ports and a plurality of output ports.”

Similarly, in claim 10, the third line, applicant may have intended to recite “a plurality of input ports and a plurality of output ports.”

Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowance

The amendment to claims 1 and 10 overcame the prior art rejection.

The following is an examiner's statement of reasons for allowance:

The prior art made of record fails to explicitly disclose an optical flip-flop comprising a laser equipped with a waveguide being equipped with a multi-mode interference portion having input ports and output ports; wherein the multi-mode interference portion oscillates in response to the set and reset pulse inputted into the multi-mode interference portion. The closest prior art of Ho does not clearly state or reasonably suggest the oscillation in the multi-mode interference

portion oscillates in response to the input of a set pulse and reset pulse inputted from one of the input ports. Therefore claims 1 and 10 are allowed. Claims 2-9 and 11-17 are allowed by virtue of dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
